To: Peace River Agriculture Development Fund (Provincial Program)

RE: PRAD I project reports and invoice
Project "Canadian Seed Growers' Association 2002 Annual Meeting"

The British Columbia Branch of the Canadian Seed Growers' Association has successfully completed the project entitled "Canadian Seed Growers' Association 2002 Annual Meeting". Attached is the program for the event and the financial documentation you require.

The event was extremely successful. We had 384 registered participants and additional attendees for parts of the convention. The participants were very happy with the arrangements made and left with a strong appreciation for British Columbia and our pedigreed seed industry, mostly located in the Peace. Our leading seed growers were able to make many valuable industry contacts from across Canada at this event.

Most of the organization for the event occurred in the Peace River region. We purchased as many supplies and services locally as was possible and employed a Peace area event coordinator. We were also able to keep very close to the budget we presented in our application.

We greatly appreciate the assistance provided from the Peace River Agriculture Development Fund. Please accept this as our final report and request for the balance (\$7,500) of the project funds.

Thank you for partnering with us in this event.

Sincerely,

Ed Hadland, Treasurer
British Columbia Branch of the Canadian Seed Growers' Association
